Education

2011-2012
Shannon Lake Elementary School, West Kelowna, Canada - 6th Grade
Completed one academic year, developing advanced English language skills and adapting to an international educational environment.

JUNE 2019 - NOVEMBER 2019
VGC International College, Vancouver, Canada - Intensive English Course

Completed a six-month intensive English course, improving oral and written communication skills in a multicultural environment, achieving an advanced level of proficiency.

AUGUST 2020 - JULY 2025

Universidad La Salle Bajío, León, Guanajuato, Mexico - Bachelor's Degree in Systems Engineering and Computer Systems
Currently pursuing my degree at Universidad La Salle Bajío and seeking to complete my internship.

Experience

- Developed an Incident API to report cases, retrieve the latitude and longitude of incidents, and send an email with a map image generated using Mapbox.
- Configured DHCP, DNS, email, PBX, and web servers on both Windows and Linux platforms.
- Made a few cross platform mobile apps with ionic, cordova and expo
- Developed A Learning Management System, using .net, c# and blazer for the front end
- Currently working on a rebranding for the landing page of synergy systems.
